Notes

***This hat is made from the bottom up. It is worked in 2 sections. The brim of the hat is worked in rows, then joined and the body is built in rounds. It is perfectly normal for you to have a latticework look with holes in your body. The velvet yarn is so heavy and warm, these holes provide just enough ventilation to keep your head the perfect temperature.**

***There are notations at the end of the row () providing a stitch count. The ch2 at the beginning of the row on the brim IS counted as a stitch. The ch2 and ch1 at the end of a round in the body IS NOT counted as a stitch, unless otherwise noted .**

About Straight Hooked

I started crocheting in 2003 and have hardly put my hook down since! I believe everyone could use a little crochet in their lives, be it by making or receiving. My wish is that this pattern brings you all the joy making as it brought me creating.

Happy hooking!
